Our tomatoes are all grown from seed at NightCrawler Gardens. Our large quart tomatoes are 7 to 9 weeks old.

(side one are **HEIRLOOMS**)

There are two types of tomatoes:  
**Indeterminate - vining (climbing)** they need staked and pruning if you want good tomatoes. These tomatoes provide fruit over a longer period of time.  
**Determinate - bush type** they do not require staking or pruning. These tomatoes produce fruit within a concentrated of time.
